Re: Docket Number LS-02-02

I am concerned about meat marketing claims and standards. I would like you to start over on setting up the standards, and to consult with family farmers, consumers, humane groups and environmental organizations. I want to know that "grass fed", "free range", and "antibiotic free" really do mean all those things and not primarily something else with a bit of truth thrown in.

Please do some more new work so that I may find and buy what I am really looking for confidently.
